

Timed Metering Pump

The DC830TMP is an economical single-product chemical dispensing system. The timed metering system is easy to program and set up. The large push button on the front face provides easy operation. The DC830TMP has two motor options to meet any chemical delivery need. The 60 rpm motor delivers 22 oz. per minute and the 105 rpm motor delivers 38 oz. per minute. Three models are available, labeled, and color-coded for chlorine, acid, or detergent.

Features & Benefits

- The DC 830 TMP is designed to be used either manually or triggered by a wash controller or a laundry machine.
- The 60 RPM pump will deliver 22 oz per minute of chemicals and the 105 RPM pump will deliver 38 oz per minute.
- Programming allows for the delay of the chemical for up to 4 minutes and 15 seconds, the maximum running time is the same. The lockout time can be 75 minutes. The lockout prevents the operator from manually injecting more chemicals during one wash cycle.
- Unit can be converted in the field, so it can be triggered by either a wash controller or a laundry machine
