WATER SUPPLY HOSES

DEMA manufactures a variety of water inlet hoses for different applications. DEMA inlet hoses are rated to 200psi, made of durable double-walled rubber, and crimped to our manufacturing facility specifications. Refer to the DEMA water supply hose guide included in the Resources section of the website for more information.

STRAINER

The DEMA #50.41.1 3/4" NPT strainer is an in-line 200 mesh (80 microns) strainer recommended for all MixRite installations. The in-line strainer will keep debris out of the MixRite unit, increasing the life of the seals.

3/4" CHECK VALVE

DEMA #57.20.8, 3/4" check valve helps limit backflow situations if the unit is used to pump the mixture any significant distance.

UFR - LOW FLOW BOOSTER

The 57.UFR low flow booster works with any 500 series MixRite to take low flows (less than .9gpm) and allows the unit to work in low flow conditions.

28.1QD and 292GQD

The DEMA #50.41.1 3/4" NPT strainer is an in-line 200 mesh (80 microns) strainer recommended for all MixRite installations. The in-line strainer will keep debris out of the MixRite unit, increasing the life of the seals.

Model 294DC and 93-18 Compressed Air Foamer and Wand

Compressed Air Foamer and wand can be used with any MixRite air and an outlet hose to produce dry shaving cream foam

WHITE FOOT VALVE STRAINER

3/4" WHITE FOOT VALVE STRAINER
The DEMA #57.34FT 3/4" white foot valve strainer prevents debris from entering the unit through the chemical inlet tubing.

3/4" ANTI-SIPHON KIT

For any 3/4" MixRites in-line to relieve pressure so chemical will not siphon out of drum or tank.
DEMA #36073008002

PRESSURE REGULATOR & GAUGE

Fits in-line with any MixRite to limit pressure spikes.

Regulator: 38030200001
Gauge: 93.15.1
